JUNYANG FOOTWEAR

Custom Slide Sandals

B2B OEM / ODM specification sheet

Bulk custom-logo slides, flip flops and resort sandals, produced on our own lines.

AT A GLANCE

- Production capacity: 50,000+ pairs per month across automated assembly lines
- Minimum order: 100 pairs, with assorted sizes accepted inside one order
- Digital proof: 3D virtual proof returned within 24 hours of receiving vector artwork
- Production window: 7–10 days on smaller runs, 8–12 days on larger or more complex ones

FOOTWEAR RANGE

- Athletic slides (PU / EVA)
- Adjustable velcro slides
- Dual-buckle resort sandals
- High-density flip flops

BRANDING & CONSTRUCTION

- 3D molded PVC patches — raised crests for team orders and premium retail anchors
- UV digital printing — full-colour artwork onto the strap or footbed
- Laser debossed footbeds — tonal marks that will not peel
- Sand imprint die-cut outsoles — texture and grip built into the sole
- No hidden mould maintenance fees

SIZE CURVE & MINIMUMS

- Full size-curve pairing across US Men’s 5–14 and US Women’s 6–15
- Mixed sizes inside one order, at no extra sorting fee
- Team orders can add individual roster polybagging so kits are handed out on arrival
- The 100-pair floor is a quantity floor, not a single-size constraint

LOGISTICS & TERMS

- Sea freight and DDP delivery to worldwide ports
- Custom frosted zip-lock bags cut air-freight volumetric weight by roughly 40% against rigid boxes
- Net-30 payment terms for qualified corporate accounts
- Dedicated QC inspector on the higher volume tiers

COMPLIANCE

- TÜV Rheinland audited laboratory
- ISO 9001:2015
- REACH compliant
- CA Prop 65 compliant

HOW TO START

- Send vector artwork with your target date — the proof clock starts when the file arrives
- We return a 3D virtual proof within 24 hours, and moulding starts after your approval
- Tell us the event date when you request the quote so the freight mode is chosen against it

Request your 3D virtual proof and bulk quotation

MOQ 100 pairs · 3D proof within 24 hours · 7–10 day production on approved artwork
